### **RMCHCS Announces Temporary Closure for Operating Room**

**GALLUP, NEW MEXICO** -Rehoboth McKinley Christian Health Care Services (RMCHCS) announced today its temporary operating room closure, effective September 15, 2025, through September 21, 2025, for remediation from flood damage and HVAC failure.

The decision was made out of an abundance of caution to ensure the safety and well-being of staff and the community. The temporary closure will cause inconvenience, and any disruption is sincerely regretted.

All OR operations and services will be paused during the closure. However, we are trying very hard to get the procedure rooms on the second floor up in the next 2-3 weeks, while the ORs are temporarily closed.

Updates regarding progress and the anticipated reopening date will be provided on the website, [www.rmch.org](http://www.rmch.org), and through social media channels, radio, and newspaper.

For more information or urgent inquiries during the closure, contact:
